ELECTRIC RELAXATION CHAIR

Electric relaxation chair is designed to position your body to make you feel weightless, Stress free, and energized. This works by elevating your feet to be at the same level as your heart. When you achieve this position, you minimize the toll that gravity takes on your body every day. Electric relaxation chairs help you off set these effects and actually feel what it 'like to be stress-free. In addition, all positions are securely held with a remote control as you can electrically control all the movement. This way, you can feel fully supported when you find your favorite position.
